

Project Solicitation for Clean Water and Drinking Water State Revolving Funds

On October 31, 2013, the Texas Water Development Board (TWDB) began soliciting projects for the Clean Water and Drinking Water State Revolving Fund programs. Project information forms are due by Monday, March 3, 2014.

All eligible projects submitted by March 3, 2014, will be included in annual Intended Use Plans for the next three years. Listed below are brief descriptions of the programs, with links:

- **Clean Water State Revolving Fund (CWSRF)** – funding for wastewater collection and treatment, nonpoint source pollution control, and estuary management projects. For more information, visit www.twdb.texas.gov/financial/programs/cwsrf.
- **Drinking Water State Revolving Fund (DWSRF)** – funding for projects that will bring existing public water systems into compliance with drinking water rules and regulations, and for source water protection projects. For more information, visit www.twdb.texas.gov/financial/programs/dwsrf.

These programs provide low-interest financing for planning, acquisition, design, and construction phases, including special loan subsidies for entities that qualify as disadvantaged.

Please access the links above to view the solicitation packets, download forms, and find contact information. If you have a project listed on the current (SFY 2014) Intended Use Plan, there is no need to submit a new Project Information Form for the same project. Update forms for projects listed in the current Intended Use Plan are available at the webpages listed above. Information on upcoming workshop opportunities in your area will also be posted on these links when they become available.

If you have any questions, please contact:

- CWSRF Specialist: Mark Evans, 512-463-8510, mark.evans@twdb.texas.gov
- DWSRF Specialist: Marvin Chaney, 512-463-8750, marvin.chaney@twdb.texas.gov

We look forward to your participation!
